## How effective is your technology environment?

FDI Consulting, Inc.'s (FDI) clients recognize the value in leveraging expertise to solve problems they are not prepared to handle with internal resources. FDI's Technical Outsourced Professionals (TOPs) help organizations maximize their technology investments by providing certified, experienced technical support to efficiently address specific technology challenges or supplement maintenance and repair of critical technical infrastructure. Our staff deals with your issues quickly and efficiently with no wasted time invested in a learning curve.

The FDI advantage is our guarantee that you only pay for the work assigned. Our consultants are focused on your goals which offer a positive effect to your bottom line, while allowing your primary support staff to focus on core functions.

# Technology Consulting Services

## Technology Solutions

FDI Consulting will provide consultant that are technically pre-qualified by our project-experienced staff – not just query matched in a resume database. Every consultant understands the importance of delivering the best solution possible, keeping in mind the requirements and maintaining cost-effective solutions.
